| BEST FOR |  Top Choice for Charleston Homes | Good option for general markets | Good Option For Moderate Wind Exposed Properties |

STAY PROTECTED IN CHARLESTON'S COASTAL CLIMATE

The Charleston area sees hurricane season activity roughly every couple of years. It's common for our region to experience heavy wind, rain, and storm surge that can quickly expose weak spots in your home's exterior. Stay protected by making a smart shingle selection built for the Charleston climate — one that's engineered for **high wind resistance**, **algae protection**, and **long-term durability** in coastal conditions.
